

## How to Download speed cam file for Navigation Master A-Z+ Cabbie's Mate A-Z map.

Please go to: <http://www.pocketgpsworld.com>

If you are not a member, you are required to pay and become a member before you are allowed to download the updated A-Z speed cam data.

The screenshot shows the homepage of PocketGPSWorld.com. At the top, there is a navigation bar with a home icon, a weekly newsletter sign-up, an email address field, a 'Sign Up!' button, a search bar, and a 'Log In / Register' button. The main header features the site's logo and the text 'PocketGPSWorld.com'. Below the header is a menu with links for 'Reviews', 'Forums', 'Free Downloads', 'Speed Cameras (Subscribe Now!)', 'Subscribers Area', 'Support', and 'Contact'. The main content area includes several advertisements: 'Overstock Garmin GPS: £19', 'Microsoft® Virtualisation', and 'Speed Camera Law'. A 'Welcome To PocketGPSWorld' section follows, containing introductory text about the site's forums and services. A 'News: Spinning Speed Camera Stats' section is also visible, accompanied by a small image of speed camera signs. On the right side, there is a 'NEW USERS' registration box, an 'EXISTING USERS' login box, and a 'Download Here' button for the 'CamerAlert Speed Camera Database 9,083 (17 Aug 11)'. A 'WORLDWIDE SPEED CAMERA SPOTTERS WANTED!' banner is located at the bottom right.

Click on **Log in/Register** button on Top Menu bar.

The screenshot shows the user registration/login page on PocketGPSWorld.com. The URL in the browser is 'www.pocketgpsworld.com/modules.php?name=Your\_Account'. The page layout is similar to the homepage, but the main content area is dominated by the 'User Registration/Login' section. This section includes a 'User Login' form with fields for 'Nickname:' and 'Password:', and a 'Login' button. Below the form are links for '[ Lost your Password? | New User Registration ]'. To the right of the login form is a 'CamerAlert Database' section with a 'Download Here' button and a 'WORLDWIDE SPEED CAMERA SPOTTERS WANTED!' banner. The top navigation bar and header are identical to the homepage screenshot.

Enter your log in details.

## PocketGPSWorld.com Speed Camera Database

[Database Download Page](#) | [Camera Submission Page](#)

**PocketGPSWorld.com Speed Camera Database Version 9.083 17 Aug 11**  
**IMPORTANT: There will be no database update next week (24th August)**  
 This release sees 42 static and mobile speed cameras added/removed/modified across the various speed camera databases. Please keep submitting all sightings of mobile speed cameras so we can keep our database up to date with active sites. Apparently-inactive sites are regularly removed from the database (note that these do not get included in the total above).

Please [click here](#) for the full breakdown of country, speed camera type and number. All members submitting qualifying reports of static/mobile speed cameras will be credited with lifetime memberships by 17:00 17 Aug 11.

The Garmin GPSR database (for older devices) is now up to date (21:30, 17 Aug 11)

 Dont forget our RSS feed which is updated every time we release the speed camera database. Simply right click on the RSS image and select copy shortcut, then post the link into your favourite RSS reader.

**To Download A Different Version:**  
**SatNav System**  
 Select from below   
 Include pMobile Files

**UK and Europe Database**  
 Please note that the European database DOES NOT include UK cameras. This is because the UK database is in mph and the European database is in kmh. If you want both UK and Europe then you will need to download both versions.

**Switzerland**  
 Using a speed camera database like ours in Switzerland is illegal. As such, even though we have some data for the country, we do not include the Swiss cameras in the European database.

**What are the pMobile files?**  
 The pMobile files are user submitted

This window may appear different depending on which browser you use. This example picture is from Google Chrome. Click on the downloaded zip file drop down menu on the bottom left corner and select **Open**

Unzip the speed cam data file. Please remember where you saved it. It may be easier to save the unzipped files in a folder on your desk top for easier access.

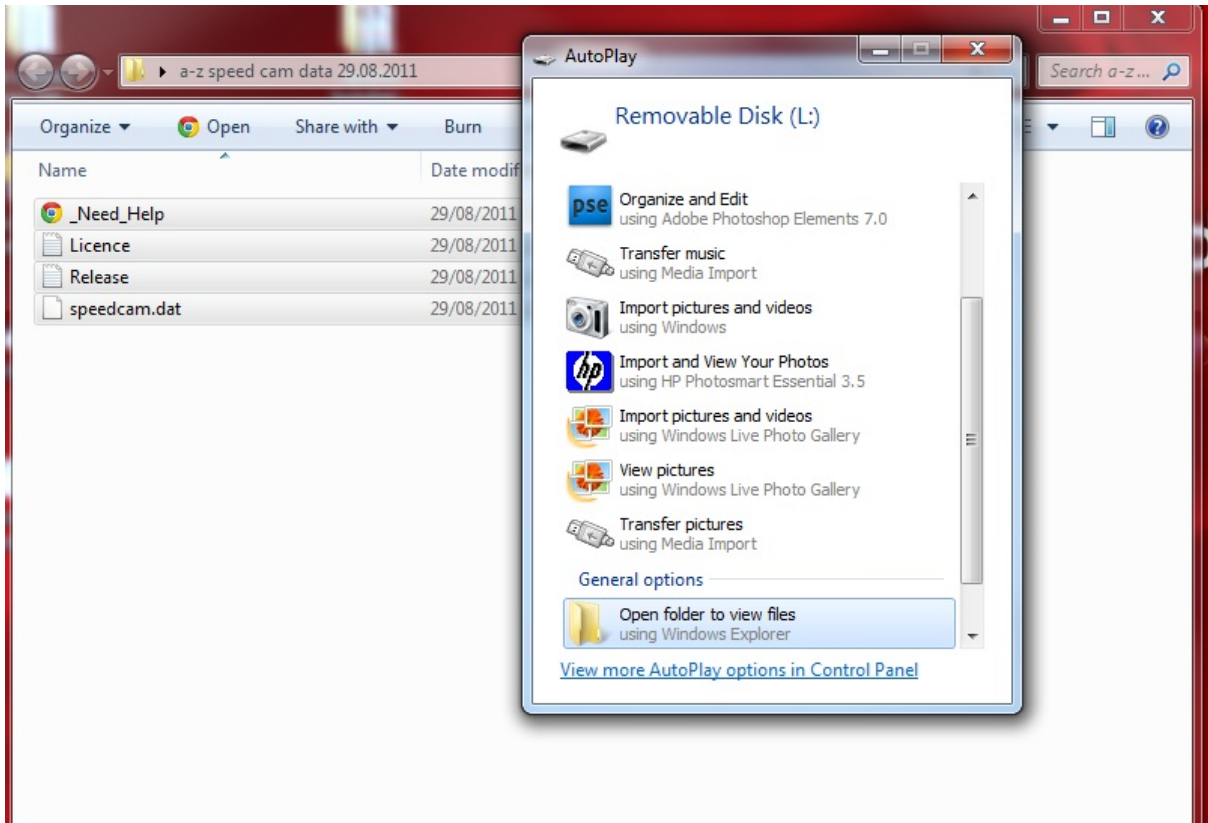

Go to your desktop or where ever you have saved the speed cam folder, open it and copy all of its contents.

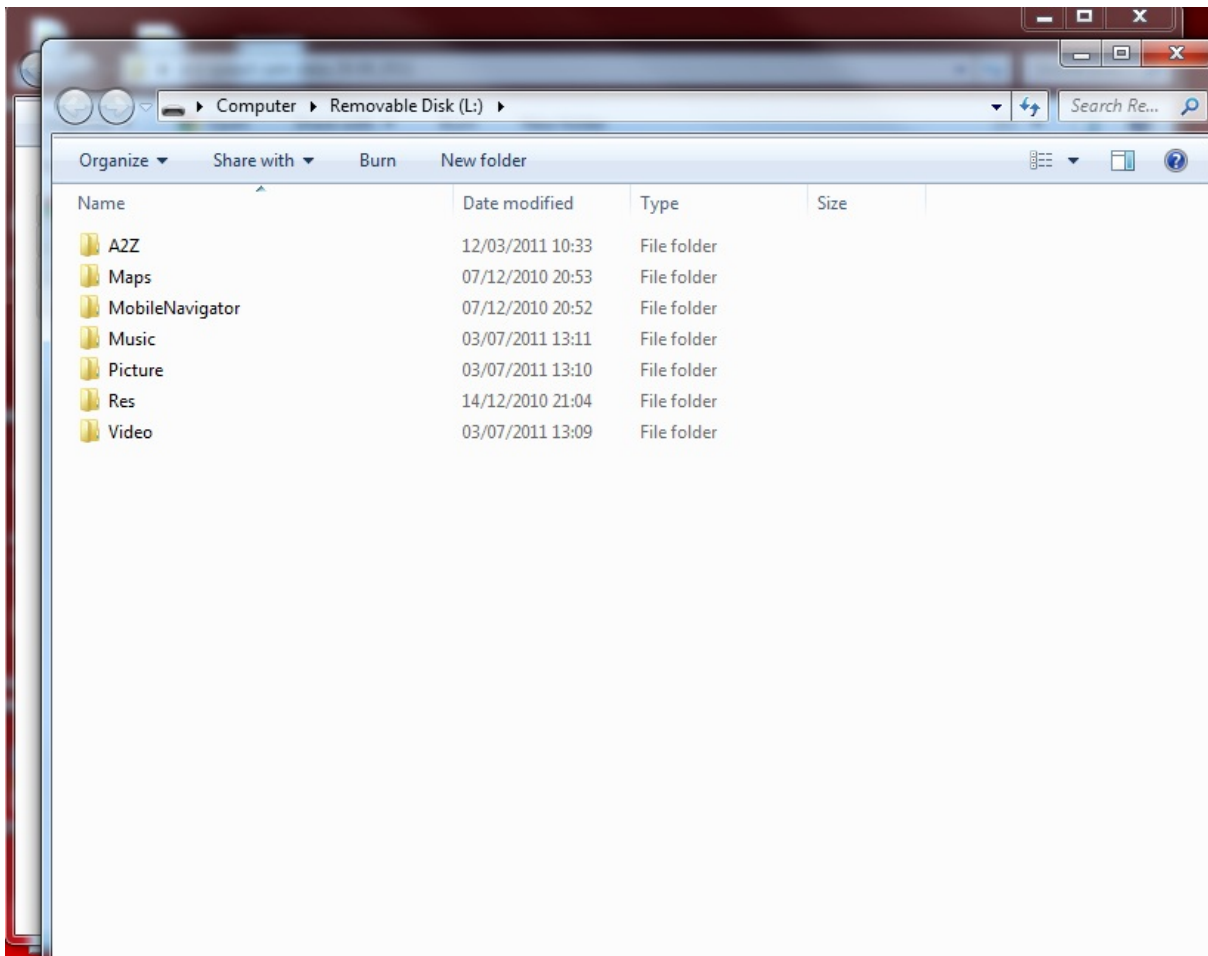

Switch on your A-Z+ Cabbie's Mate unit (your device) and make sure the USB setting is on **Mass Storage** mode.

Connect your device to your PC with the USB cable provided. Please wait for a minute until your PC recognizes the connected device via USB.

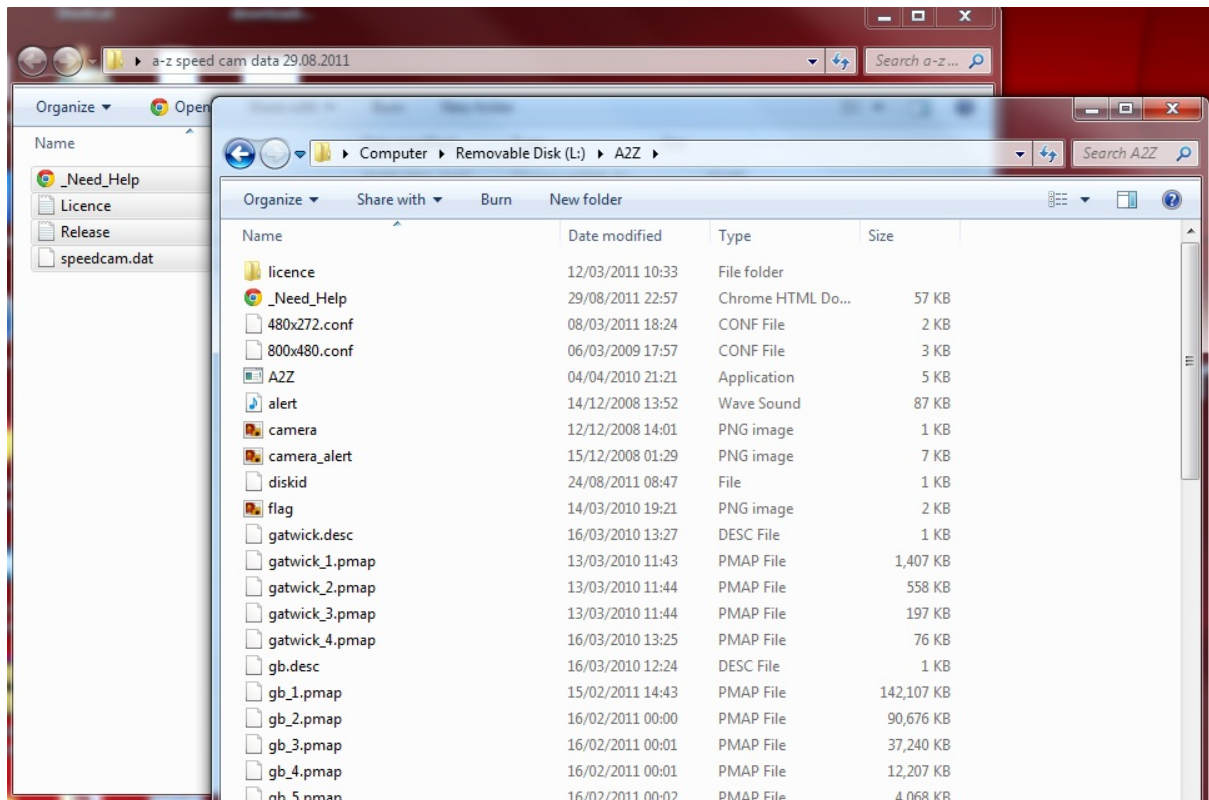

As soon as your device is recognized a window shown below will appear on your PC screen.

From the AutoPlay window, please select **Open folder to view files**.

Please double click on A-Z folder to open it.

Please right click on an empty area in the A-Z folder and paste the speed cam files you copied (it will ask you to replace the existing file, you need to click on replace)

After pasting all copied files, please close all windows and disconnect your device from your PC. You have successfully updated your speed cam data on you A-Z+ Cabbie's Mate A-Z software.
